Dear Astute Advisory cc

On behalf of Tshepang Care Centre, we would like to forward our humblest gratitude to your organisation for the continued support and assistance received towards making the lives of the children at Tshepang better. With your support we have been able to feed over 100 children over 3 days a week, and we have seen an incredible difference in their lives as most of them had been going days without food.

We have seen a dramatic increase in the number of children being assisted by Tshepang as a result of your valuable contribution. With this increase in number we have unfortunately been unable to assist all the children for all the days of the week. It is for this reason that we are grateful for your help and would appreciate all further aid from yourselves to support the vulnerable children and 3 orphans living at the centre.

It is our wish that 2 of the orphans living at Tshepang can grow up with their younger siblings (3 girls from aged 3 to 10) who were taken to a 'place of safety.' This family unfortunately lost their widowed mother late last year. It is our wish to acquire Tshepang Care Centre a permanent resident/home (as is it currently situated in an informal settlement) were orphaned children can live.

Yours sincerely

Sarah Sibiya (Founder)
